WIND DAUGHTER

Since beginning her journey with her gift of song many years ago, Wind Daughter has built a program of experiential workshops and retreats to teach others how to renew their relationship with

Mother Earth, and to reach within themselves to sustain their spirits.

As a trained ceremonialist, Wind Daughter works with regional circles and groups, as

well as national events, to assist others in the path of healing. Wind Daughter is the founder and Director of West Winds -- an experientially oriented spiritual organization in Arkansas, as well as the adopted daughter and long-time student of Grandfather BearHeart Marcellus Williams. In late 2006, after receiving guidance through prayer, reflection, and consultation, Wind Daughter was guided to give name to her own vision, while continuing to carry The Bear Tribe's teachings & the Bear Tribe Medicine Chief bundle into a new era, creating The Panther Lodge Medicine Society.
